

Our facility

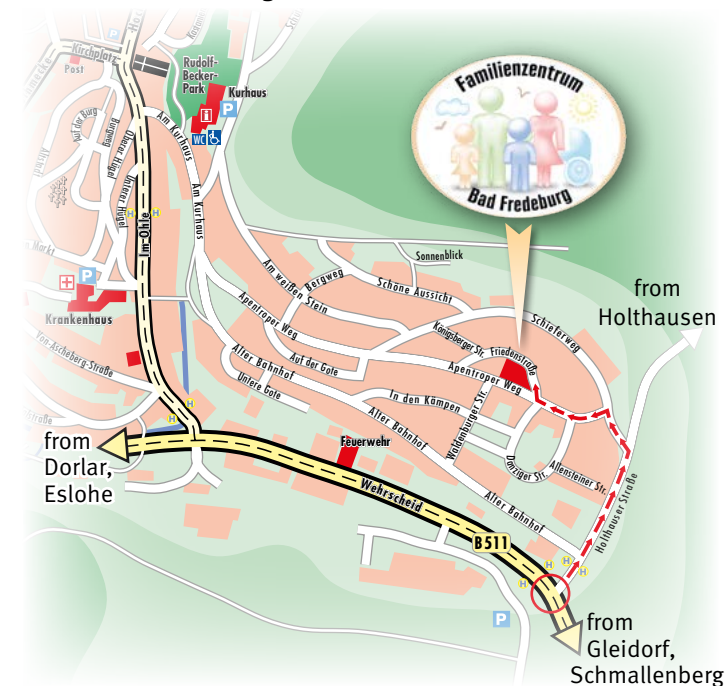

We educate, raise and take care of children aged 1 to 6 years in three groups. There are spacious group and supplementary rooms, a gym, a relaxation room and an outdoor adventure playground for all of the children's activities.

The family center offers separate rooms for meetings, educational and counseling offers or other activities.

Our Family center ...

- » creates a place of exchange for families through a parents café and meeting opportunities for toddler- and self help -groups
- » offers advices and informations for parents (or legal guardians)
- » offers activities in which parents and children can participate
- » arranges networks through cooperation with various institutions
- » helps in arranging supplementary care options (e.g. child day care, the babysitterpool) to improve compatibility of family and work
- » trains parents in adjusting to every day life with their children
- » promotes a healthy way of life for both children and parents by offering educational opportunities and preventive measures
- » is supported by an active parents' association
